Exploring Climate Solutions Webinar Series

Brought to you by the Governor's Council on Climate Change (GC3)

The GC3'S **Exploring Climate Solutions** webinar series explores innovative and successful climate change solutions across Connecticut and the nation. The series provides you with first-hand accounts of high-profile municipal climate programs, climate initiatives in the corporate world, greenhouse gas reporting frameworks, statewide sustainability programs, and low-carbon fuel initiatives.

In our upcoming **December 1st lunchtime webinar**, participants will learn about the **Boston Green Ribbon Commission's** efforts to bring together leaders from all segments of Boston to share ideas, monitor progress, and engage key sectors in implementation of the city's Climate Action Plan. The Commission is comprised of members of the Barr Foundation, dozens of Boston's top executives, community leaders, and representatives from each of Boston's leading economic sectors. Commission members are also working to align the resources of the key sectors, serving as advocates and showing their peers what progress looks like by adopting and promoting leading efficiency and clean energy practices.

Please join us to learn more about this innovative initiative by registering [here](#).
